SUPERIOR GLAZED STONEWARE DRAIN

PIPES, invented and manufactured by

WILLIAM NORTHEN, UNION POTTERY, No. 14, VAUXHALL-WALK, LAMBETH.

W. NORTHEN begs to inform proprietors, contractors, builders, under competition, &c., that he has completed "steampower" new patent machinery for making GLAZED STONEWARE DRAIN PIPES, JUNCTIONS, BENDS, ELBOWS, SYPHON-TRAPS, &c. &c., through the many advantages of pressure made by this machinery over all others it may be warranted, that it ensures perfect uniformity in form and size, both of pipes and sockets, the fine lining of a thickness being laid on the inside, thus rendering any others now in use; and the pipes and sockets being made by one process are never found unequal.

W. N. invites particular attention to the superior quality of the stone used in his manufactures, which is equal to china, and two testing stoneware to the drainage profession. CLOSET PANS, with basin and direct trap, and improved basin valve ditto. W. NORTHEN'S PIPES MAY BE INSPECTED AT THE FOLLOWING PLACES:—HIS WORKS, AS ABOVE; Messrs. Wood's, Bishop's Wharf, Regent's Park Basin.—J. C. Hilton's, Cowley and Hammersmith Wharf, No. 6, Upper Thames-street.—Lucas and Son, Eastwood.—Charles Richardson's, South Wharf, Paddington.—G. Errit's, Cambridge Heath Wharf, Hackney.—W. Perry's, Canal Bridge, Old Kent-road.—Millwood and Samuel's Wharf, Kennington Basin, and Church Wharf, Hammersmith.—J.
